

passion
for precision

The ideal solution for **high-feed machining of medium- to high-strength steels**

FRAISA – Your technology partner for milling processes

Article X7630

XFeed – High-feed Productivity

- ▶ Proven X-AL coating
- ▶ Optimized chip evacuation
- ▶ Robust 3D end cutting edge
- ▶ HM MG10 ultrafine-grain carbide
- ▶ Cutting edge conditioning
- ▶ New HFC edge geometry with cooling channel

new!

80 % higher infeds

Productivity boost and very high chip removal rates (40 %)

Safe and suitable for autonomous processes

Sustainable thanks to **FRAISA ReTool®**

Extremely economical

Verified application data
