## Innovative universal tool for rigid tapping

**FRAISA** – Your technology partner for  
threading

Article EC10545 and EC10570

## **Xtap** – one tap for everything

- ▶ Cylindrical shank execution h6 with side clamping flat surface, DIN 1835B
- ▶ HSS-PM/F cutting material
- ▶ Optimized swarf space geometry
- ▶ Wear-resistant hard material coating FRAISA-**AlCrTiN**
- ▶ Optimized spiral point
- ▶ Defined micro-geometry, cutting edge rounding
- ▶ Incool design (optional)

Rigid tapping on CNC-controlled machines

High performance and tool life

Cost efficient thanks to universal application

Superior thread quality

Process-reliable application

Broad product range
